

TIFBLAIR

Centipedegrass

TifBlair[®]
The Certified Centipede

TifBlair[®] Centipede is the first certified centipede on the market. TifBlair is more cold and drought tolerant than common centipede. Tests conducted over three winters in Blairsville, GA and Stillwater, OK demonstrated that TifBlair can survive severe winter temperatures. TifBlair can grow in low pH soils because of its deep root system. TifBlair is a low maintenance turf that is ideal for commercial and residential installations.

BENEFITS

REMARKABLY drought tolerant

SUPERIOR cold hardiness

EXCELLENT color retention in the fall

GENETICALLY pure when certified

CHARACTERISTICS

RESISTS weeds and Bermudagrass invasion

EASY to mow, won't scalp with infrequent mowing

RECOMMENDED mowing height 1" - 2",
raise 1/2" in early fall

A TURF FOR ALL SEASONS

TIFSPORT

Bermudagrass

TIFSPORT

TifSport Bermuda has superior strength and excellent traffic tolerance. TifSport has a fine leaf blade and is well adapted for cold climates. TifSport provides a high-density turf that can tolerate low mowing heights. Tests demonstrate that TifSport has good insect and disease resistance.

A **TURF** FOR ALL SEASONS

A TURF FOR ALL SEASONS

ZEON

Zoysiagrass

Zeon® was developed to provide a superior fine bladed zoysia, with increased shade tolerance, low thatch production and improved traffic tolerance. Zeon's extensive root system produces a thick compact turf that recovers quickly from injury. Zeon is sold only as a certified zoysia.

BENEFITS

EXCEPTIONAL shade tolerance

LOW fertilization requirements

PRODUCES less thatch than other varieties

ESTABLISHES in a variety of soil types

EXCELLENT late season color retention

GENETICALLY pure

CHARACTERISTICS

BRIGHT green color

FINE blade

THE "barefoot" grass

RECOMMENDED mowing height 1/2" - 1 1/2"

A TURF FOR ALL SEASONS

TIFGRAND

Bermudagrass

TIFGRAND™
CERTIFIED BERMUDA

TifGrand™ Bermuda is the first sterile triploid Bermuda to exhibit significant shade tolerance compared to other Bermudagrasses. TifGrand has superior quality in full sun and shaded areas. TifGrand is darker green than other Bermuda varieties such as Tifway or TifSport. TifGrand is a product of turfgrass scientist Wayne Hanna of the USDA Tifton Research Station.

BENEFITS

- GROWS well in full sun or shade
- MINIMAL fertilizer requirement
- EASY to mow, rotary mower
- SUPERIOR insect resistance

CHARACTERISTICS

- ATTRACTIVE dark green color
- LUSH density
- EASY to maintain
- RECOMMENDED mowing height 1/2" - 1 1/2", raise 1/2" in early fall
